

Dear Customer,

Our pet admission policy is based on not causing inconvenience to other guests of the establishment and being respectful of the camping equipment.

For this reason, we have described some small rules that you must follow and hand in signed upon arrival at reception for everyone's coexistence and which we will now detail:

- 1.- Dogs considered dangerous breeds are not allowed: Pit Bull Terrier, Staffordshire Bull Terrier, American Staffordshire Terrier, Rottweiler, Dogo Argentino, etc. as well as all those referred to in Annex II of Royal Decree 287/2002 of 2 March by which law 50/1999 is developed, on the potential possession of animals.
- 2.- Pets cannot be left alone, except for exceptions that must be consulted with reception.
- 3.- They must not allow pets to relieve themselves in the campsite and if by chance they do, they must pick them up immediately.
- 4.- They cannot access the buildings, toilets, cafeteria, restaurant and reception.
- 5.- The client is responsible for any type of problem caused by the pet, whether to another client or in the camping facilities themselves. If the pet causes any damage, the client will bear these expenses.

The client confirms that his pet must comply with it and that his vaccination book is up to date, as well as the relevant insurance.

We accept any pet that meets these requirements.
